<b>DESCRIPTION &amp; AIMS</b>	<p>The SLO MB project is a provincial project, focused to develop a plan on the subject of youth employability, ability to actively seek employment, find it and keep it.</p> <p>The hypothesis that guides the strategy for employability in the Monza and Brianza area is integration and the collaboration between the social, economic, educational and institutional actors of the territory. This strategy aims to set up a "Context" that promotes, recognizes, encourages the conditions of employability and can transform them into concrete work and business paths for young people from Monza.</p> <p>SLO MB implements its strategy by establishing a territorial direction of policies and interventions on youth employability and acts on four "levers" (which constitute four specific system actions of the plan):</p> <ul style="list-style-type: none"><li>• the recognition of skills acquired in informal and non-formal contexts;</li><li>• the extension and qualification of "bridging" services for access to work;</li><li>• the construction of an "entrepreneurial chain";</li><li>• the integration and development of organizations and bodies that promote European mobility and international</li></ul>
